

## **Notice to patients of Dr Keith Blayney**

**Starting from Friday 11th October 2019 the surgery will be closed on Fridays and into the future.**

**In emergencies (such as chest pain) you should always ring 111 for an ambulance and urgent problems that cannot wait should be seen at the Hawera Hospital ED.**

**In fact the TDHB Planning and Funding manager clearly does not understand the value of independent General Practice primary care and has withdrawn support for our practice, including after-hours funding so she is obviously happy for our patients to use ED after-hours.**

DR KEITH BLAYNEY

Deliveries can be left at the Dental Rooms when the surgery is closed.
